ALL ABOUT QUARTERS

Today we're learning about quarters in the United States of America! A quarter is a U.S coin made out of a metal mix between nickel and copper. A quarter is twenty-five cents and four quarters together equals a dollar. George Washington, the first president of the United States of America is always on the front, but quarters have all types of different designs on the back!

An eagle is most often used, but there are pictures for each of the 50 states, national parks or monuments, or an important American woman.

To learn more about quarters, watch our Read With Roo feature on our Facebook® page. What kind of quarters have you collected?

TEAM PLAYER SPOTLIGHT

Jennifer Giroux is currently an Assistant Branch Manager at Henrico Federal Credit Union's Dixon Powers branch. Jennifer has been working at the credit union for over 18 years! Jennifer states that her favorite part about working at Henrico Federal Credit Union is the members. Jennifer says, "They are my second family, and I enjoy helping them any way I can. It is a privilege to have members come to you and trust you to help them with all of their different needs. Whether the need is a new vehicle to even celebrating a life event, I am so happy to be here with them," Jennifer is so excited for summertime and absolutely loves being on the water. She can't wait to be out boating and tubing on the river while enjoying her favorite refreshing beverage of choice, Chick-fil-a's diet lemonade.

Thank you for all you do at the credit union, Jennifer!

Summer DIGITAL BANKING TIPS

- 1 If you misplace your debit card, there is no need to panic! You can temporarily lock and unlock your debit card right from our app. If you realize your debit card is lost for good, you can easily re-order a new card for yourself as well.
- 2 A great way to keep your budget on track this summer is by setting up account alerts within your Digital Banking app! * You can set a balance alert to notify you if your account dips below a specified amount or rises above a set amount. You can also set transaction alerts to specify the maximum amount of money you can spend from an account before receiving an alert. This is a great way to keep from buying too many souvenirs on that vacation you've been saving for!
- 3 While you're all over town enjoying the sunshine, you can deposit your checks right through the app wherever you may be! Be sure to follow all of the instructions carefully when doing so, we want to keep you and your money safe.
- 4 The last cool feature we want to highlight here is our secure messaging. You can directly select the account you have questions about and you can start a conversation about it whenever is convenient for you! Your secure message conversations are monitored during business hours by our Contact Center, just like your calls!
